BIMP Single Action Spring Hinge Functional Data

Aluminium

The Justor BIMP spring hinge is ideal for existing non-sprung light weight doors that need to be returned to a closed position without assistance, where traditional hinges currently exist .

Ideal for fly screen doors and other light weight doors, the BIMP is designed with retrofitting in mind. Installation of the BIMP spring hinge is quick, neat and simple, as it can conveniently be installed without having to dismantle the door.

Made by Justor of Spain, the BIMP's unique design makes it a maintenance free solution - no continuous greasing or adjustments required, just 1 drop of oil in the top cap once a year. The BIMP spring hinge comes with a 2 year manufacturer's guarantee and is available in a range of finishes.

The BIMP spring hinge provides the flexibility to change an existing non-sprung door into an automatic closing door. It is suitable for most light weight doors in any enviroment.

Held in stocked by Bellevue Architectural, the BIMP is readily available in three (3) anodized finishes. It is an aesthetically pleasing, cost effective and functional solution to consider for your light weight door, spring hinge needs.

BIMP

The BIMP does not require regular greasing and works on a 180° aperture. Thanks to its compact construction it is a small diameter hinge. It has three (3) adjustment points and, because it is made by Justor in Spain, it comes with a 2 year manufacturer's guarantee.
