

# BL001 | Bonaiti Magnetic Passage Latch

## Designed to provide a seamless door to wall environment

In 2008, Bellevue Architectural released Bonaiti of Italy's range of magnetic locks and latches into the Australian & New Zealand markets with incredible success, which we still enjoy today. Bonaiti magnetic latches are an ideal solution for any project where clean simple minimalistic design & quality is fundamental.

**BL001 Overview:** The BL001 magnetic tubular passage latch represents the next leap forward in door latching hardware. Specifically designed to provide a clean look between the door and its jamb by not using a visible striker plate. An added feature is when the door is open there is no protruding latch tongue when the door is open.

The BL001 is a real and cost effective alternative to traditional tubular latching mechanisms. It is the ideal latch for any project where design and quality is fundamental.

**Aesthetics:** There is no visible striker plate when the door is closed, as a result you have a clean door & jamb. When the door is open, there is no unsightly latch tongue protruding from the edge of the door to catch your clothes on - a clean look.

**Functionality:** It works in the same way that any standard swinging door latch would, pull down on the lever and pull or push the door. Its incredibly quiet as well.

**No Protrusion:** There is no chance of catching clothes or arms on protruding latch tongues & striker plates as they do not exist with the BL001.

**Wide Door Jamb:** No need to custom make a visible unsightly, costly striker plate for wide door jambs. The BL001 latch only engages when the door is in the closed position.

**Reliability:** *Massive Australian & New Zealand install base.* Tested to over 400,000 cycles - totally reliable. Over 10 years of in market product experience built into every unit. Made 100% in Italy.

**Finish:** A wide range of finishes available including satin chrome, polished chrome, polished brass, bronze, black and white.

**Rebated Doors & Steel Frames:** Using the BL003 rebate kit allows you to use the magnetic latch on standard timber rebated doors. For steel frame jambs, you can use the BL003A Steel frame receiver cup.

**Tie Through Handle Compatibility:** The BL001 has been specifically designed to cater for all industry standard bolt through door furniture. Holes exist to the left and right of the hub for the tie through bolts.

**30° Turn Version:** Use the BL001T range if your lever sets require the latch to turn no more than 30° due to its spring construction, if you want a short throw.

**NO VISIBLE STRIKER PLATE, NO PROTRUDING LATCH TONGUE. CLEAN & SIMPLE LINES. 100% MADE IN ITALY.**

**Massive worldwide install base including Australia and New Zealand. Now, new finishes including Black & White**

### Magnetic Latch specification Codes

BL001 finish - Magnetic passage latch 60mm back set  
 BL001T finish - 30° turn magnetic tube latch 60mm back set

#### Finish Guide:

SC= Satin Chrome                      CR = Polished Chrome  
 PB = Polished Brass                  BZ = Bronze  
 BLK = Black                              WH = White

#### Options

BL003 - Rebate kit to suit BL001, BL001T & BL002  
 BL003A - Metal jamb receiver cup to suit BL001, BL001T & BL002

### Quick Facts

Compatibility	Standard Australian, European door hardware
Reliability	Tested to over 400,000 cycles
Spindle Size	8mm
Back Set (A) Hub	60mm
Visible Striker Plate	No
Visible Latch Tongue	No
Tongue Action Noise	Silent
Place of Manufacture	Italy
Guarantee	2 years manufacturer's
