

BL006 - 009 | Bonaiti Magnetic Glass Lock & Patch Plate

Designed to provide a seamless Glass door to wall environment

The magnetic lock/latch patch plate range for glass doors from Bonaiti of Italy is a revolutionary in design. Not only is the look classic and elegant, there is no visible striker plate when the door is closed. As a result you have a clean glass door & jamb. When the door is open, there is no unsightly latch tongue protruding from the edge of the door to catch your clothes on - a beautiful clean look.

BL006 Glass Patch Plate - Passage Doors

Suitable for glass doors where standard passage access is required. Used with your choice of lever hardware (supplied separately). The BL006 glass passage patch plate incorporates all the benefits of the complete Bonaiti range of magnetic locks and latches. - No visible striker plate, no protruding latch tongue and a smooth silent action suitable for single action or double action swing doors.

BL007 Glass Patch Plate - Privacy Doors

Suitable for privacy type doors where the added function of a turn snib and emergency release is required. Used with your choice of lever hardware (supplied separately). Ideal for WC type doors and office doors. - No visible striker plate, no protruding latch tongue and a smooth silent action suitable for single action or double action swing doors. (Lever & snib/ release sold separately)

BL008 Glass Patch Plate - Lockable Doors

Suitable for glass door where a key lock is required. Used with your choice of lever hardware. The BL008 is suitable for use with a standard double euro key cylinder making the BL008 an ideal solution for office doors, bedroom doors and doors where general lock security is required. - No visible striker plate, no protruding latch tongue and a smooth silent action suitable for single action or double action swing doors. (Lever & snib/ release sold separately)

BL009 Glass Patch Plate - Door Receiver Strike

The BL009 is used in conjunction with the BL006, BL007 and BL008 patch plates. It is fitted to the secondary glass door leaf or fixed pane of glass that meets the active leaf, providing a receiver strike for the lock mechanism in the active glass door leaf.
