

Architectural Entry Door Pulls for the Inspired European by Bellevue..it's about the design

Inspirational.....

Made in Europe by Olivari of Italy and Didheya of Spain

Now updated with the new Elmes of Japan range

Bellevue Architectural Pty Ltd.

Delivering the Highest Quality & Latest in European Designed & Manufactured Architectural Hardware for Over 25 Years.

Call (03) 9571 5666, www.bellevuearch.com.au or email info@bellevuearch.com.au for more information.

Inspiration.....

For as long as we can remember we have been striving to create, design and build. Our conscious effort to better ourselves; willingness to take risks has separated us from the rest.

“We look, we touch, we consider and we are inspired”

Since 1911 the Olivari Family of Italy has also been inspired... Inspired to design, create, build and inspire others.

For close to 100 years the brand Olivari has represented nothing but the best in architecturally inspired door hardware and accessories. The relationship between design and form, form and function, aesthetics and practicality are all symbiotic.

The creation of a door handle is more than the door handle itself; it's the connection provided between its form and its function; its personality and its aesthetic appeal; its design and the environment. *Quality & design are cultural; inspired by generations past.*

The importance of the handle cannot be underestimated. It is an indispensable object; it can hinder ones advance or facilitate movement in spaces of everyday life. Without it, we would have to redefine our entire way of life.

Relevant is also the handle size. It is a small sculpture; a point of difference of visual attraction on surfaces that are all too often anonymous or redundant. The opening and closing of a door is a highly symbolic gesture which has not lost its meaning over time; taking design by the hand.

A key distinction of the Olivari name is the significant number of interpretations of the “design” concept. The modern handle lives somewhere in the middle of the equation, geometry and the organic, the practical and the inspired.

A handles form is unique, a challenge to design and create. It represents personality and function in its truest form. Inspired designs, their materialization and transformation into Olivari handles is evident in the number of designs which exist in the Olivari range.

But just as important is their story of creation. A significant number of world renowned architects and designers have accepted Olivari's invitation to design the handle; to bring to life the balance between geometry and the organic.

“Inspiration is true design,embrace it”

Some Of The Designers.....

Gio Ponti, F.A. Porsche, Franco Albini, Franca Helg, Penta Associati, Alessandro Mendini, Studio Olivari, Andrea Branzi, Steno Majnoni, Oscar Tusquets, Vico Magistretti, Simonetta Ribenti, Mossimo Iosa Ghini, Sergion Mazza, Giuliana Gramigna, Enrico MMaforio, Ignazio Gardella, Klaus Hartman, Paola Portoghesi con G. Bertocchini e R. Aureli, Giorgio e Max Pajetta, Richard Sapper, Luca Casini, Nicola Novelletto, Roberto Volonterio, Rodolfo Bonetto, Enzo Mari, Giorgetto Giugiaro, Sergio Asti, Frabrizio Bianchetti, Monti G.P.A.

It's easy to see why Olivari is considered a world leader in the designer door hardware field. When you have designers of this calibre collaborating with you, you're bound to design and then create something special and unique.

1983.....

In 1983 while renovating his own home Aron Midler (founder of Bellevue Architectural) experienced something I am sure was not uncommon to our industry at the time; the inability to find high quality and uniquely designed architectural door furniture.

Frustrated with what he did find, Aron spoke to a number of leading Architects and Interior Designers who all agreed that the Australian market could benefit significantly if products available overseas were available locally.

Recognising the gap in the Australian market place for these types of uniquely designed products, he took the opportunity to work with the leading Manufacturer of Door Hardware available; Olivari of Italy, to form Bellevue Architectural.

Today.....

For over 25 years Bellevue Architectural has been providing Australia and New Zealand with the Olivari range of hardware and accessories, all of which have been, and are recognised as world class in quality, design and craftsmanship.

Since Bellevue's inception Aron's commitment in bringing to Australia the newest and most comprehensive range of Olivari products has not wavered.

To date Bellevue has supplied countless projects with the Olivari lever, from new homes and residential renovations to apartments, large commercial projects and resorts.

ELEMS OF JAPAN STAINLESS STEEL ENTRY PULLS

Entry Door Pulls

A front door, boardroom door or even just a meeting room door. It's the first and last thing you see, and touch when you enter or exit. It allows you to pass from one environment to another, without it we could not function. The door, it's a focal point in movement.

Making it look the part, standing out from the rest can be as simple as choosing a stylish and quality entry door pull. It can transform a plain door into a feature door. Lever handles have their place, but the right entry pull such as the one illustrated designed by F.A. Porsche on page 17, can truly enhance an environment.

Ideally priced for large projects: Call for project pricing
