

Spring Hinge BISA240 Functional Data

Zinc Plated Steel

Now there is no longer a need for unsightly door closers, the BISA240 family of single action spring hinges are designed to automatically close a door with a subtle visual appearance. Made in Spain by Justor, the BISA240 is highly functional and adjustable, ideal for all doors that weigh up to 150kg (refer to the weight graph).

Simplistically, the spring will act as a door closer and close the door once opened. Made out of Zinc Plated Steel, the BISA240 single action spring hinge is ideal for internal or external applications. Once installed the BISA240 spring hinge can be adjusted to bring the door back quickly or slowly via three (3) tension settings. Each setting provides detailed control of the door closure speed. Adjustments can be made without having to take the door down.

Currently the BISA240 spring hinge is being used on perimeter doors, pool doors, gates, front doors, large feature doors, office doors & WC doors, just to name a few. The BISA240 has been installed in restaurants, hospitals, commercial buildings, apartments, boats, residential environments and general projects of all sizes throughout Australia and New Zealand.

An added advantage of the BISA240 is its appearance; it is sleek and has clean lines. Cost effective and highly functional, it is a real and effective alternative to traditional and unsightly door closers and closing solutions. Justor BISA240 spring hinge comes with a 2 year manufacturer's Guarantee; the Justor BISA240 is hard to overlook.

The BISA240 is a maintenance free solution; no periodic greasing or adjustments required, just 1 drop of oil in the top cap once a year - a smart design. The BISA240 represents a smarter option when it comes to design and aesthetics.

BISA240 Quick Facts:

- Spring Resistance 500,000 cycles
